

BRABOURNE
COMMUNICATIONS

You're One Step Ahead With **BrabourneAlert**

Would You Like A 2 Way Radio That's A Telephone, A Pager, Displays Fire/ Intruder Alarm And BMS Messages AND Provides Lone Worker And Man Down Alerts? – You Can Now With **BrabourneAlert**.

Using the latest digital radio technology you can now view multiple systems status and alarms on your handheld radio. **BrabourneAlert** allows you to connect your on site digital radio system directly to your **fire alarm**, **intruder alarm** and **BMS** system alerting you *immediately* to any alarms and ensuring you stay ahead of any developing incident.

I used the BrabourneAlert system at a previous school so when I took over the Estates & HSE management role at Kedleston Schools I didn't hesitate to specify **BrabourneAlert** for our landmark new school at *High Peak* – *C.Kennedy, Kedleston Schools*

BrabourneAlert

Improve productivity, reduce risk and save money at the same time with BrabourneAlert

- Sends alarm panel messages direct to your radio – no need to see the panel to start managing the incident
- Provides onsite voice and data communications for mobile staff and connects to your telephone system so even desk bound staff can stay in touch
- Increases employee productivity whilst improving personnel safety
- Easy to use – intuitive menu driven displays
- Choice of portable radios – with lone worker and man down protection
- Wide coverage area – can operate off site
- Provides 24 hour/365 days a year cover – highly resilient fail safe system
- Ensures user buy in – only one device need be carried for multiple tasks

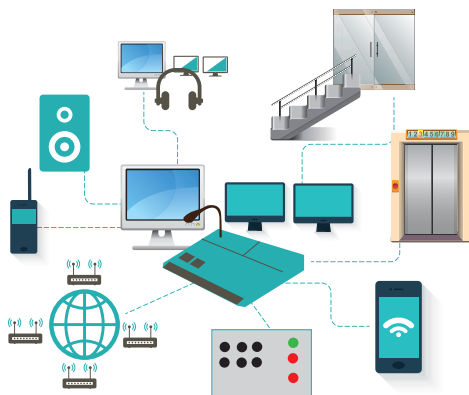

BrabourneAlert makes your onsite radio system work harder for you. It provides an efficient means of sending vital voice messages to maintenance staff, security officers, estates management teams and other key personnel.

BrabourneAlert will also display alarm and status messages generated by your fire and intruder alarm allowing you to start managing an incident even if you are away from the panel, or even off site!

Integrates with Building Management System

You can also connect BrabourneAlert to your BMS giving you timely alerts of the status of plant and machinery and other systems, allowing your staff to respond only when needed, freeing up time for more productive tasks.

BrabourneAlert has built in resilience and is designed to operate 24 hours a day It's simple to operate and costs virtually nothing to run.

BrabourneAlert comprises one or more alarm interface units, a base unit and multiple handheld radios
